

Welcome to
The Cyber Exchange!

Thank you to
all our sponsors!

On behalf of our sponsors and speakers, thank you for joining us at The Cyber Exchange. This full day event will focus on the important **Network Security, Data and Privacy (Cyber) Liability** issues facing Directors, Officers, Information Technology Professionals and organizations today. We have worked hard to bring together leading Cyber experts from their respective fields and we are excited about having them share their industry intellect with each and every one of you.

The breadth of Cyber topics that will be discussed today are a direct reflection of input from clients just like you. They have attended previous sessions and they have shared their most current requirements for industry knowledge, in essence, pushing us to bring you the best insight into today's fast paced evolving world of Cyber liability, security and protection.

We are particularly excited about our keynote speaker and her luncheon session on Ransomware, "A Walkthrough of an Actual Ransomware Case". This session will help you with the tough decision that you may have to make when saddled with a Ransomware attack; **Do we pay the extortion demand, or not?**

Sincerely,

Lisa LeGrand
