**MNP Cyber Security**

## About MNP

Canada's 5th Largest  
Accounting | Tax | Consulting

4500 Team Members

80 Offices coast to coast

We know cyber security

We know PCI

We know technology

# Just what is "PCI"?

**THERE'S NOTHING AWKWARD  
ABOUT OUR TEENAGE YEARS.**

**Standard was  
2005!**

**ger**

## Who is involved in PCI?

### Lots of players

Banks – issuing, acquiring

Service Providers – supply chain

Payment

Non-payment

Merchants

Consumers - not a fraud program

So it's about credit cards?

**No!**

Branded Cards

Don't forget about interac

So it's about payment?

**Nope**

AML/KYC

Recurring payments

Identification

Corporate cards

What do I do?

# Setting the stage

Scope

Gaps

Achieving

Maintaining

What do I do?

# Path to compliance

Gaps

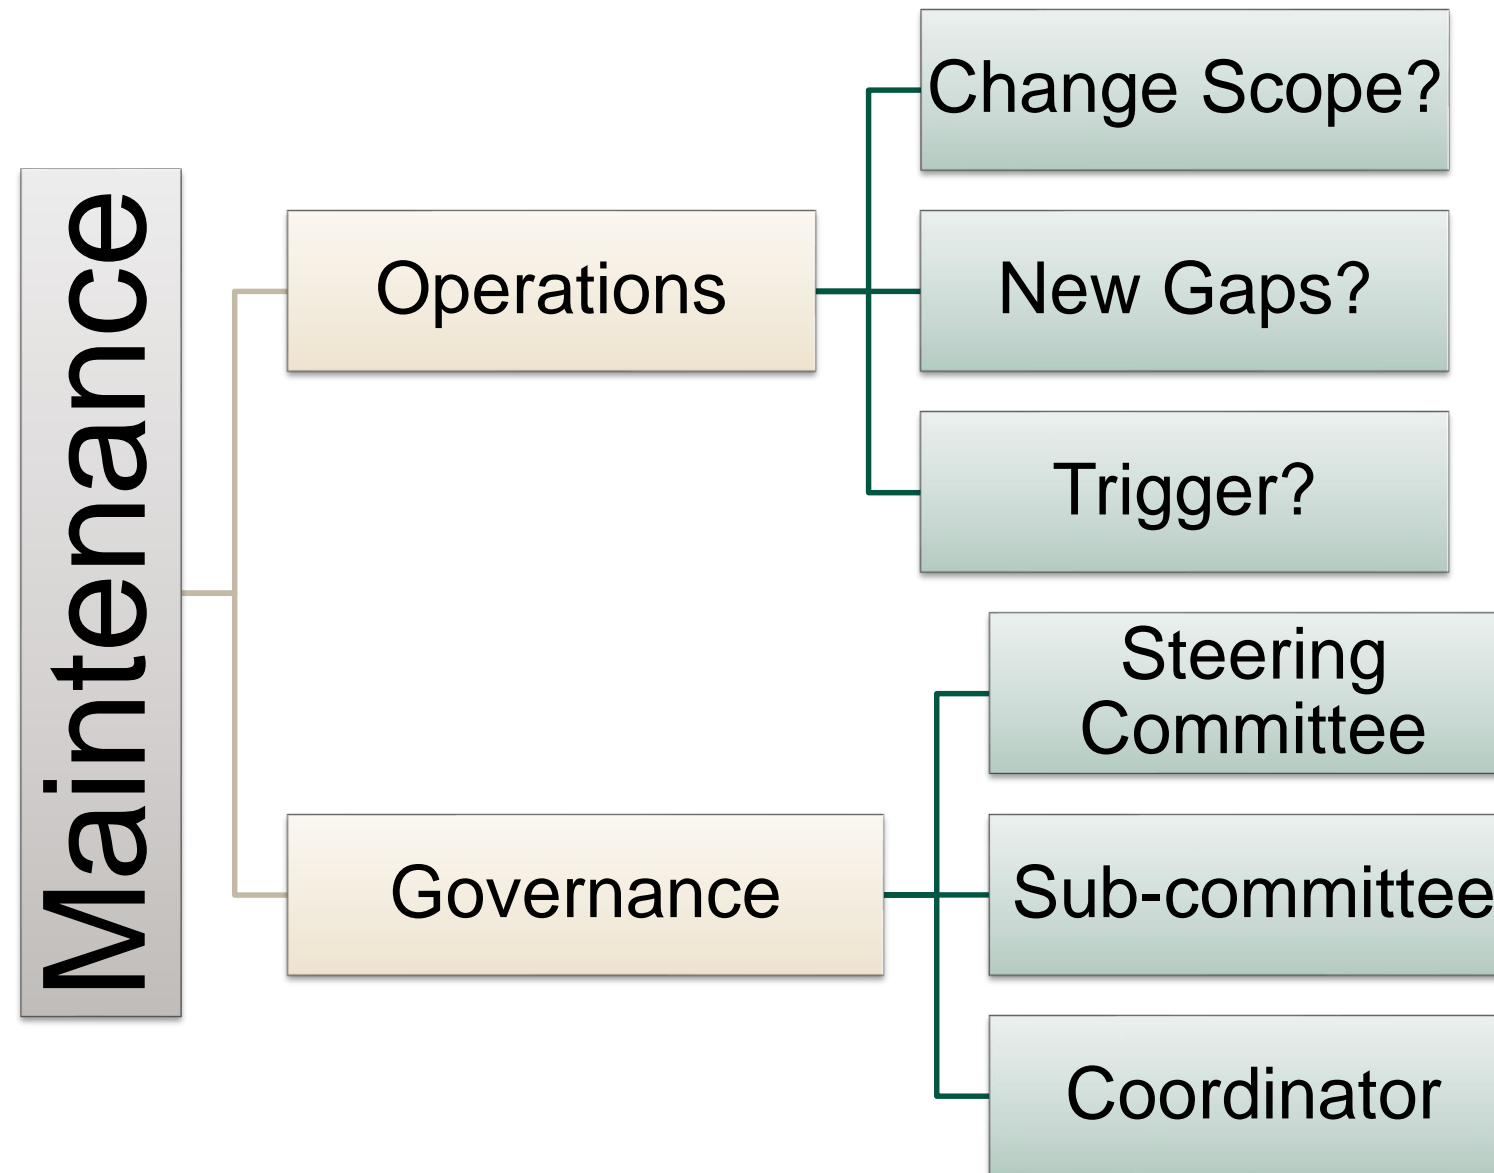

Scope

## How to I maintain?

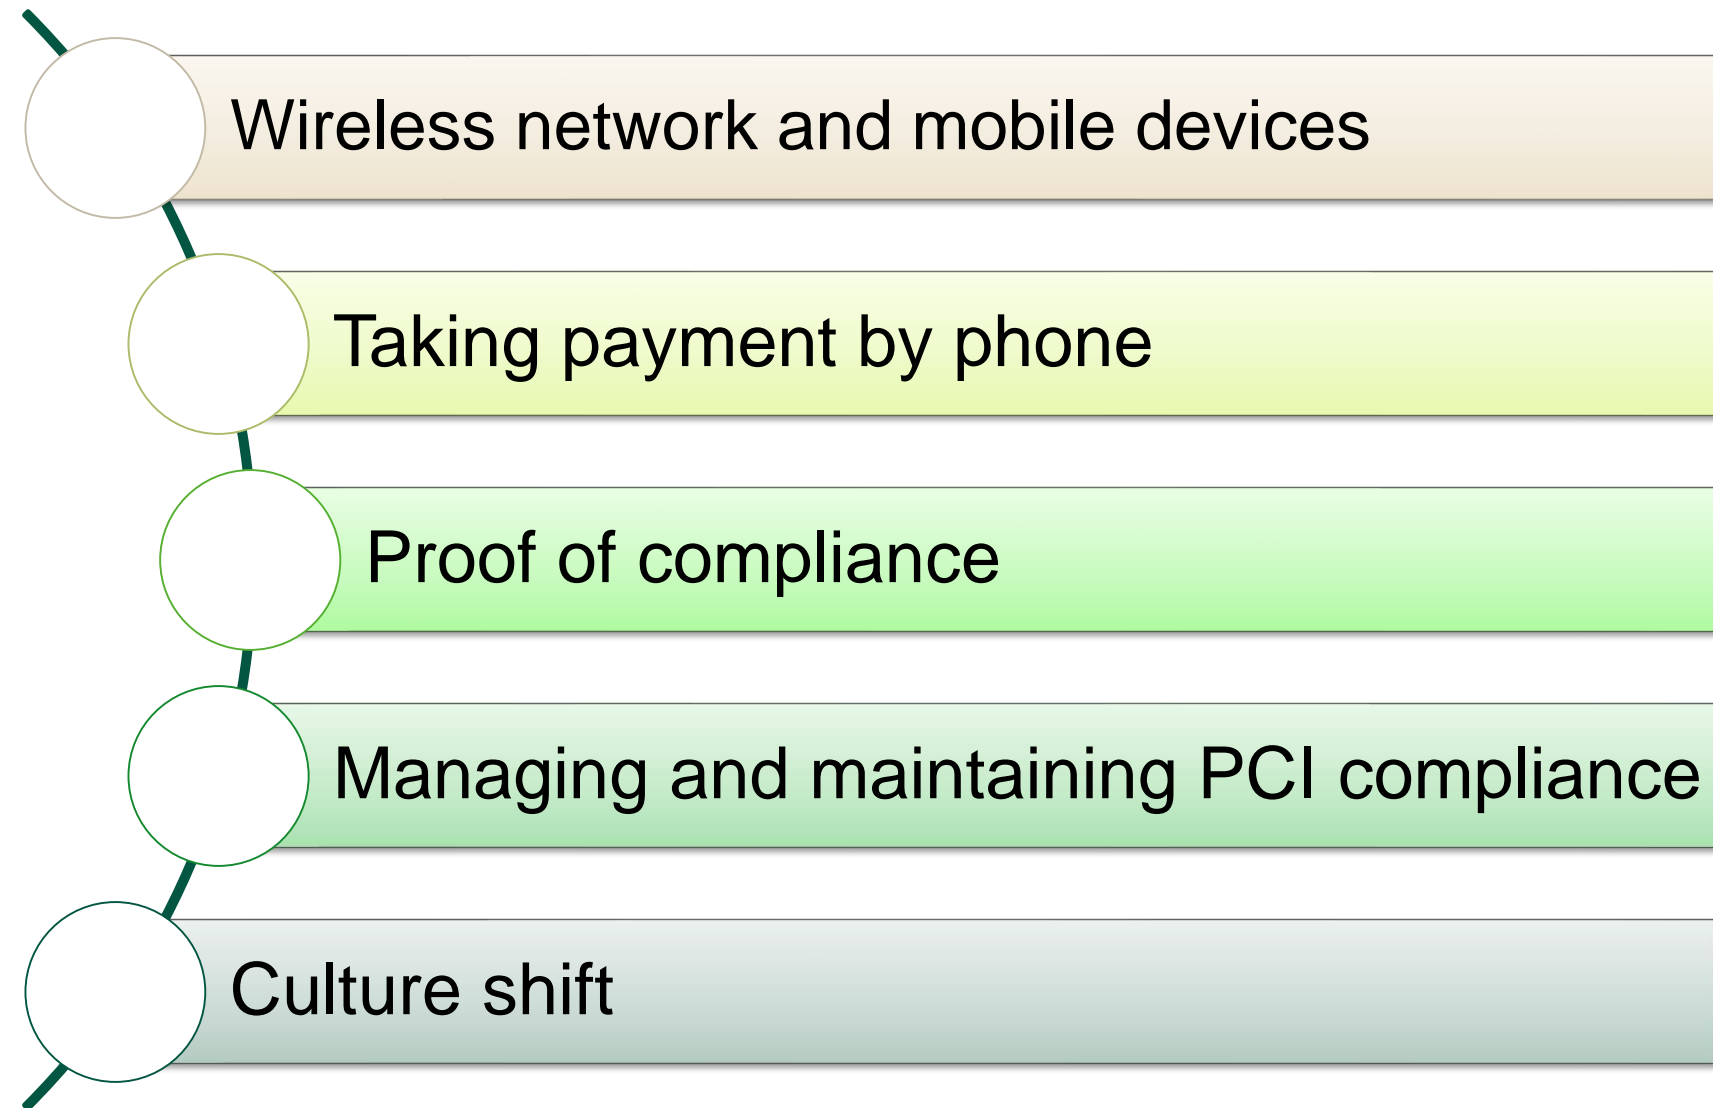

## Common pitfalls

## More common pitfalls

So if I do PCI I'll be cyber secure?

**Yeah right!**

Just the tip of the iceberg

PCI is small part of your overall cyber

GRC – this is just the C

PCI is not a complete answer. It is specific to Credit Card data.

Should be considered the low bar – gross negligence

**Other data, other threats, other risks**
